Job Aid

Before You Begin

This document describes how to prepare, edit, sign, and submit an application against a Federal funding opportunity announced on ezFedGrants¹. This document also describes how to withdraw or discard applications and how to check the status of applications while they are being reviewed by a USDA agency. GAOs and SO's can access e-signature cases from their actionable items and sign agreements once the application is approved.

Typically to submit applications and manage awards in ezFedGrants, you must have two individuals from your organization with access to ezFedGrants: one person with the Grants Administrative Officer (GAO) role and another person with the Signatory Officer (SO) role. However, for small organizations, the GAO can act as Signatory Official by using the Self-Certify checkbox for applications. Whoever signs an application will also be required to sign any subsequent agreements or amendments.

In ezFedGrants, all applications must be linked to an opportunity; therefore, ezFedGrants cannot be used to submit unsolicited applications directly to an agency, nor will ezFedGrants allow you to start an application without an opportunity.

Key Terms

- **Opportunity:** An announcement informing the public of the availability of Federal funds. Also referred to as Notice of Funding Opportunity (NOFO), funding opportunity announcement (FOA), or grant award opportunity.
- **Application:** A proposal package that an organization submits to a Federal agency for funding consideration. This package includes standard forms along with budgetary, project, and other information.
- **Signatory Official (SO):** An ezFedGrants user role that is responsible for signing application packages prior to submission to the relevant agency. The SO would also sign any resultant agreement/award.
- **Grants Administrative Officer (GAO):** An ezFedGrants user responsible for managing an organization's grant portfolio. This person can act as a Signatory Official by using the Self-Certify Checkbox for applications.
- **Partner:** An individual from an organization or agency who is involved with an agreement/award in some capacity. Each partner has a "partner function" that designates the partner's primary role under a specific agreement. Examples include administrative contacts, program contacts, signatory officials, key personnel, authorized representatives, and financial contacts.

You Will Need

- An eAuthentication/Login.gov Verified identity Account
- The appropriate ezFedGrants External Portal user role:
 - To create or edit applications: Grants Processor or Grants Administrative Officer (GAO) role
 - To sign and submit applications for agency consideration: Signatory Official (SO) role or Grants Administrative Officer (GAO)
- An opportunity which is accepting applications
- All materials and information for the application, which is usually detailed in the opportunity announcement and may include:
 - Project narrative and scope of work or work plan
 - Project place of performance information, including congressional district
 - Budgetary information, including project areas, cost categories, and indirect costs
 - A list of partners and their partner functions
 - Required and optional supporting documentation

Data Note

The screenshots provided with these instructions are a representative sample for the purpose of training, which contain sample data and may not depict the entire screen.

In addition, these instructions focus on the **minimum system requirements** for the above-described procedure(s). You may need to complete additional fields or provide additional information not specifically described in this document.

¹ Agencies may publish funding opportunity announcements in multiple locations (Grants.gov, ezFedGrants, etc.); however, your organization should only submit one application per opportunity (depending on the opportunity, additional applications may invalidate prior applications). This document only provides instructions for preparing applications in ezFedGrants. If you are submitting an application through Grants.gov, please refer to instructions provided on Grants.gov.

Getting Started

Launch the ezFedGrants External Portal from the [OCFO ezFedGrants website](#) and log in with your Login.gov verified identity account.

For questions regarding ezFedGrants access, including logging-in and eAuthentication, please review the [eAuthentication/Login.gov FAQs](#).

Create an Application

To prepare an application in ezFedGrants, you must complete the standard application forms (SF-424 and SF-424A), identify individuals from your organization who would be involved with any resulting agreement/award, address agency- or award-specific criteria, and upload any supporting attachments.

Start New Application

1. From the **ezFedGrants External Portal Home** screen, click the **Applications** tile on the navigation menu and then click the **Create Application** link on the dropdown menu. The **Search Opportunities** screen will open.

Note: You can also click the **Opportunities** tile to go directly to the **Search Opportunities** screen.

2. On the **Search Opportunities** screen, complete at least one **Search Criteria** field and click the **Search** button to locate the opportunity for which you want to submit an application.

Note: You do not have to enter the full Funding Opportunity Number or Title. For example, if you type just “APHIS” in the **Funding Opportunity Number** field, the search will find all opportunities with “APHIS” somewhere in the Funding Opportunity Number.

3. Locate the relevant opportunity in the **Search Results** table. To view the complete opportunity announcement, click the **Funding Opportunity Number** link to open the **Opportunity** screen.

From the **Opportunity** screen, you can click the **Close** button to go back to your search results.

4. Once you have located the correct opportunity, click the **Create Application** link or button² to create a draft application for this opportunity.

Note: If the **Create Application** link or button is missing, this means the opportunity is no longer accepting applications. If you believe your organization is still eligible to apply for the award after the application window has closed, please contact an agency representative.

Complete SF-424

The first stage of the **Create Application** screen is the standard application form, SF-424. You must complete the mandatory fields [indicated by an asterisk (*)] along with (usually) some non-mandatory fields.

Throughout the application creation process, it is recommended to save your progress often by clicking the **Save** button. To exit without saving, click the **Close** button. To discard an application after you have saved it, click the **Withdraw** button.

*This document only describes the **minimum** requirements for submitting an application in ezFedGrants. Usually, you will need to complete additional non-mandatory fields or upload additional attachments. To avoid delays in processing, please take your time to ensure that all fields, attachments, etc. are complete and correct (to the best of your knowledge). The **Transfer** button appears in the top navigation bar. This feature allows users to applications to another user within their organization when the application is in **Draft/Create Status***

Some fields are pre-populated from the associated agreement and cannot be edited. If the information in a locked field appears incorrect, please contact an agency representative.

1. Once you reach the **Create Application** screen, you may enter an **Applicant Identifier** or **Federal Entity Identifier** in **Boxes 4 or 5a**, respectively. These are alternative organization identifiers that may be assigned to your organization by a specific federal agency.

Note: Details are provided below about locked fields in the first part of the SF-424:

- **Box 1 (Type of Submission), Box 2 (Type of Application), If Revision, and Box 5b (Federal Award Identifier):** You can only submit new applications through ezFedGrants. Amendments are handled separately. If this application is intended as a continuation of a prior award/project, please upload an attachment (on the **Attachments** stage, later in this procedure) containing the relevant Federal Award Identifiers (i.e. FAINs) and a brief explanation.
- **State Use Only, Box 6 and 7:** If relevant to your application, you will add this information as an attachment when you reach the **Attachments** stage, later in this procedure.

State Use Only	
6. Date Received by State: N/A	7. State Application Identifier: N/A

- **Applicant Information (Section 8), Boxes a-d:** These fields automatically populate based on your organizational affiliation or selection.
 - If these details appear incorrect, please ensure that you have selected the correct organization (some organizations have multiple UEI numbers), compare the details with your organization's SAM.gov profile, or contact an agency representative.
 - If you are affiliated with multiple organizations and you selected the wrong organization, click the **Close** or **Withdraw** button to discard the draft application and restart the application creation process.
 - If you are affiliated with one organization and these details appear to be incorrect, please contact an agency representative.

Attach supporting documents as specified in agency instructions
<i>Please add any relevant attachments to the attachments screen.</i>

7. In **Section 16 (Congressional Districts Information)**, you will enter congressional district codes relevant to the proposed project. Congressional districts should be entered as a two-letter state abbreviation followed by a three-digit district number with a dash between. For example, you would enter CA-005 for California 5th district. You can find congressional districts using the **Find Your Representative** search at <https://www.house.gov>.³

In **Box A**, input the code for your organization's congressional district. If your organization is outside the US, enter 00.000.

In **Box B**, input the appropriate code, as described below, for the area impacted by the proposed project (which may not be the same as the designated Place of Performance):

- If the project impacts only one district, input the code for that district.
- If the project impacts multiple districts in one or more states, enter the primary/largest congressional district that will be impacted by the proposed project.
- If the project impacts all districts in one state, replace the three-digit congressional code with the word "all". For example, you would use MD-all for a project impacting the entire state of Maryland.
- If the project impacts every district in every state (i.e. a nationwide project), input US-all.
- If the project impacts an area outside the US, enter 00.000.

If necessary, attach a complete list of congressional districts impacted by the project.

16. Congressional Districts Information	
* a. District Of Applicant:	* b. District Of Program/Project:
Attach an additional list of Program/Project Congressional Districts if needed	
<i>Please add any relevant attachments to the attachments screen.</i>	

8. Input the proposed start and end dates for your project in **Proposed Project Information (Section 17)**. To enter a date, either click the **Calendar** icon and select a date from the dropdown calendar, or type a date using the MM/DD/YYYY format. The end date must be a date in the future.

17. Proposed Project	
* a. Start Date:	* b. End Date:

³ Detailed instructions are provided on the Grants.gov blog: [How to Find Your Congressional District for the SF424 Form](https://www.grants.gov/blog/how-to-find-your-congressional-district-for-the-sf424-form/).

9. In **Estimated Funding Information (Section 18)**, provide estimated funding for each of the given categories (Federal, Applicant, State, Local, Other, and Program Income).

Box G (Total) will automatically calculate based on your entries in **Boxes A-F**.

18. Estimated Funding Information

* a. Federal:	* b. Applicant:	* c. State:	* d. Local:
* e. Other:	* f. Program Income:		
g. TOTAL: \$0.00			

10. Select an option for **Section 19 (Is Application Subject to Review by State Under Executive Order 12372 Process?)**:

If you select **Option A**, you must enter the date on which the review was completed.

Questions 19 - 21

* 19. Is Application Subject to Review By State Under Executive Order 12372 Process?

☐ a) This application was made available to the State under the Executive Order 12372 Process for review on

☐ b) Program is subject to EO 12372 but has not been selected by the State for review

☐ c) Program is not covered by EO 12372

11. Locate **Section 20 (Is the Applicant Delinquent on Any Federal Debt?)**. No is selected by default. If applicable to your organization, select **Yes** and provide an attachment containing an explanation of the delinquency. Attachments are covered later in this procedure.

* 20. Is the Applicant Delinquent On Any Federal Debt? (If Yes, provide explanation in attachment)

☐ Yes

☒ No

If "Yes", provide explanation and attach

Please add any relevant attachments to the attachments screen

Note: **Section 21** will populate once a Signatory Official signs the application (after you have prepared the entire application).

12. Once you have completed all necessary fields on the SF-424, click the **Next** button to proceed to the SF-424A form. **Note:** While an application is in Draft status, you can use the **Transfer** button highlighted in **Red** to transfer the application to another user to complete.

Complete SF-424A

The second stage of application creation is the **SF-424A** form. This form captures detailed budget information for the proposed project.

How to input your proposed budget:

In **Sections A-D**, enter budget estimates for the entire project, **except** if the application is for funds that require incremental Federal authorization (ex. annually or quarterly). For incrementally-authorized funds, enter budget estimates for **only the first budget period** (ex. first year) in **Sections A-D**, then enter estimated Federal assistance for subsequent budget periods in **Section E**.

*To avoid losing your work, please click the **Save** button regularly.*

If you need to go back to the SF-424, click the **Previous** button.

1. Locate **Section A (Budget Summary)**.

Please refer to the instructions in the paragraphs above before proceeding.

In the first column, enter up to four major activities or functions under the proposed project, then enter the total estimated amount of Federal (**Column E**) and Non-Federal (**Column F**) funds for each category.

If the opportunity/agency does not require division by activity or function, use only one row and enter the program or opportunity title in the first column.

If you require more space, enter summary totals on the digital SF-424A and provide one or more attachments containing full budget details (later in this procedure). **This digital SF-424A form must capture the entire proposed budget.** For example, if you have six activities, you would provide an attachment detailing all six activities, but on the digital form, you would group similar activities such that four or fewer categories are required.

Identify Partners

In the **Partners** stage, you will identify the primary partners and their appropriate partner functions (these terms are defined at the beginning of this document). At minimum, you must identify the **Primary Administrative Contact** and the **Primary Program Contact**. Additional partner requirements may be described in the opportunity announcement. Primary, secondary administrative and program contact fields include all users in the organization.

*The **Partners** fields on the **Create Application** screen will only allow you to select users with access to ezFedGrants for your organization. Furthermore, some fields may be limited by user role (for example, the **Signatory Official** fields only allow you to select users with the Signatory Official or Grants Administrative Officer role). This is because these partner functions are associated with application and (if awarded) agreement tasks that will occur in ezFedGrants, such as signatures and financial/performance reporting.*

Please include an attachment containing the full names and partner functions for any additional partners that you are not able to capture on this screen, such as:

- Additional alternative Administrative Contact, Program Contact, or Signatory Official partners (beyond the two entered on the **Create Application** screen).
 - Partners who have a function other than those listed on the **Create Application** screen
 - A secondary Administrative or Program Contact partner who does not yet have access to ezFedGrants and, therefore, cannot be assigned to a partner function on this screen.
1. Identify at least one Administrative Contact by clicking in the **Primary Administrative Contact** field, pressing the **Down Arrow** key on your keyboard, and then selecting the relevant user from the dropdown menu. It may take several seconds for the dropdown menu to appear, depending on the number of users in your organization.

You can filter the menu by typing one or more letters into the field. For example, if you want to assign Geoffrey Chaucer to this partner function, you could type “ge” to see all users with “ge” in their name.

*This field **will not** accept typed entries; you **must** select the username from the dropdown menu.*

Use the **Secondary Administrative Contact** field to identify a second Administrative Contact, if desired.

Applying to Opportunities in ezFedGrants

Job Aid

2. Use the same method detailed in step one to select a **Primary Program Contact**. You may also select a **Secondary Program Contact**, if desired.

* Primary Program Contact		Clear
Secondary Program Contact		Clear

3. Using the same method detailed in step one, you **have the option** to complete the **Primary** and **Secondary Signatory Official** fields. Neither field is mandatory. The Signatory Official designation and these fields are unique. Please review the below information carefully before taking action.

Please read the entire text of this step before taking action.

A Signatory Official (SO) or Grants Administrative Officer (GAO) must review and sign every application before the application is submitted to the relevant agency for consideration. In ezFedGrants, the specific SO or GAO who signs an application will also be responsible for signing any resulting agreement/award and any amendments made to the hypothetical agreement.

*Both the **Primary** and **Secondary Signatory Official** fields are optional. If one or both of these fields are completed, **only the designated individual(s)** will be able to sign the application and submit it to the agency for consideration. If **both** fields are left **blank**, then **all** SOs and GAOs in your organization will be able to sign the application. If you are a GAO but do not have signatory authority for your organization please do not sign these applications.*

To clarify, the **Primary** and **Secondary Signatory Official** fields determine how many SOs and GAOs will have the option to sign a specific application (one specific SO GAO, two specific SOs GAOs, or all SOs GAOs). No more than one Signatory Official or GAO will sign an application regardless of the number of Signatory Officials/GAOs who have the option to sign the application.

Your organization must have at least one user with the Signatory Official or Grant Administrative Officer role in ezFedGrants to submit applications in ezFedGrants, but you do not have to specify a Signatory Official on your applications. An organization with one person with the role of Grants Administrative Officer can now complete the entire application process by themselves.

Do not swap user roles (i.e. change someone from Grants Processor to SO long enough to sign an application, then switch them back to Grants Processor) just to sign applications, because Signatory Officials sign applications **and** any agreements/awards resulting from those applications. **Your organization should have at least one consistent, designated GAO at all times.** When the designated GAO changes, ensure that any existing agreements and in-progress applications (including those pending an agency decision) are updated appropriately.

Self-Certify Application

This section describes how the GAO can self-certify and sign applications by acting as a Signatory Official.

1. A self-certify checkbox will appear in the Partners section. For applications, the self-certify button is only available for GAOs. GAOs and SO's will be listed in the primary signatory partner box.

The screenshot shows the 'Create Application APP-21110' form. The 'Self Certify' checkbox is unchecked. The 'Primary Signatory Official' field is highlighted with a red box and contains 'TEST GAO'. The 'Secondary Signatory Official' field is also highlighted with a red box and contains 'TEST GAO'. The form includes fields for Primary Administrative Contact, Secondary Administrative Contact, Primary Program Contact, Secondary Program Contact, Primary Authorized Representative, and Secondary Authorized Representative. Each field has a 'Clear' button next to it. The form also includes a 'Save' button, a 'Withdraw' button, a 'Close' button, a 'Transfer' button, a '<< Previous' button, and a 'Next >>' button.

2. When the Self-Certify box is checked the Primary and Secondary Signatory Official fields will be automatically grayed out. The Primary Signatory Official field will be auto-populated with the GAOs name.

The screenshot shows the 'Create Application APP-19110' form. The 'Self Certify' checkbox is checked. The 'Primary Signatory Official' field is grayed out and contains 'TEST GAO'. The 'Secondary Signatory Official' field is also grayed out. The form includes fields for Primary Administrative Contact, Secondary Administrative Contact, Primary Program Contact, Secondary Program Contact, Primary Authorized Representative, and Secondary Authorized Representative. Each field has a 'Clear' button next to it. The form also includes a 'Save' button, a 'Withdraw' button, a 'Print Application Package' button, a 'Close' button, a 'Transfer' button, a '<< Previous' button, and a 'Next >>' button.

Finalize the Application

Once you have completed the SF-424, SF-424A, designated the minimum-required partners, addressed agency- and award-specific details, and uploaded all relevant attachments, you are ready to submit the application for certification and signature prior to submission to the relevant agency.

1. Click the **Send to Certify** button to send the application to the Signatory Official(s). The **Send to Certify** button is only available when viewing the **Attachments** stage.

Note: If you selected one or two specific Signatory Officials on the Partners stage, the application will be sent to only the designated Signatory Official(s). Alternately, if you did not specify a Signatory Official, the application will be sent to all users with the Grants Administrative Officer and Signatory Official roles in your organization. If you are a GAO and selected Self-Certify, the final button on the Attachments page will be labeled **Certify**, clicking this button will take you directly to the Sign and Certify pages where you can complete the certification process and submit the application to the agency.

A horizontal row of five buttons: 'Save', 'Withdraw', 'Close', 'Transfer', and 'Next >>'. The 'Next >>' button is highlighted in blue, while the others are white with blue borders.

2. ezFedGrants will check that your application meets all minimum requirements. If submission is successful, a confirmation message will appear at the top of the screen or for self-certified applications the certification pages will be presented. Otherwise, you will see one or more error messages indicating what must be corrected before the application can be submitted.

A screenshot of the 'Application (APP-5690)' status page. The status is 'Pending Signature'. A green message box states: 'Application APP-5690 has been submitted for final approval and signature to your Organization's Signatory Official.' Buttons for 'Generate Package' and 'Close' are visible in the top right.

Once submitted, notifications and work items are sent to one or more Signatory Official(s)/Grant Administrative(s). Self-Certified applications immediately open to the Certification pages.

3. After submitting an application to the Signatory Official(s) or self-certifying it as a GAO, you can print a copy of the application by clicking the **Print Application Package** button. This allows you to generate a PDF document containing the Full Application and any PDF attachments you uploaded.

A screenshot of the 'Print Application Package' dialog box. The dialog has a title bar with 'Withdraw', 'Print Application Package', 'Close', 'Transfer', '<< Previous', and 'Send To Certifier' buttons. The main content area says: 'Check all documents to be included as part of the Application PDF. Please note that the system generated Application package will only include PDF attachments that have been uploaded. The list below only displays documents attached in PDF format for selection.' Below this is a table with a 'Select All' checkbox and a list of documents:

☐	Select All	File Name
☒		Full Application (System Generated)
☒		Project Narrative/Scope of Work/Operating Plan
☒		Testing

At the bottom of the dialog is a 'Print Application Package' button. On the left side of the dialog, a sidebar shows '3. Partners' and a list of attachments: 'ach 5.pdf' and 'ach 3.pdf'.

Signatory Official/Grants Administrative Officer: Review & Sign Application

If you are a Signatory Official or GAO, you will receive a work item (Actionable Item) to review and sign an application when one is ready for your signature. This section describes how to open and complete application signature work items. If you are a GAO but do not have signatory authority for your organization, please do not sign the applications in your Actionable Items. These items should only be signed by Signatory Officials or GAOs in your organization who have signatory authority.

Each application may be open to all Signatory Officials and GAOs or may have up to two designated Signatory Officials; however, only one Signatory Official or GAO needs to complete the application signature work item. If you receive a work item notification, but do not see the work item in your **Actionable Items** list, another Signatory Official may have already completed the work item.

Once an application is signed, it is submitted to the relevant agency.

The Signatory Official or Grants Administrative Officer who signs an application in ezFedGrants will be required to sign any resulting agreement and amendment(s).

*Users who have the Signatory Official role in ezFedGrants should stay with this role. **Do not switch roles just to sign an application and then switch back!** This will cause problems later if an agreement results from the application.*

1. On the **ezFedGrants External Portal Home** screen, locate the application you want to review in the **Actionable Items** section. Click the **Case ID** link to open the application work item.

Note: If you have a lot of work items, use the **Category** field to filter your work items.

2. On the **Application** screen, review the contents of the application by clicking the **SF-424**, **SF-424A**, **Partners**, **Additional Details**, and **Attachments** tabs.

3. After reviewing the application, select **Sign and Submit**, **Return**, or **Withdraw** from the **Please select an option** dropdown menu.
 - **Sign and Submit:** The application is ready to be submitted to the awarding agency for consideration.
 - **Return:** The application needs to be corrected before submission to the agency.
 - **Withdraw:** The application should be discarded.

4. If you selected the **Return** or **Withdraw** option, enter relevant comments in the **Comments** text box.

If you selected the **Sign and Submit** option, you must click the **Legal Notice** button and accept the legal notice before finalizing your decision. Acceptance of the legal notice is required to submit your application to the agency. If you disagree with the legal notice, please contact an agency representative.

Note: Acceptance of the legal notice **does not** constitute acceptance of any award or agreement. Should your application be accepted by the agency for awarding, a separate signature process will occur when an agreement is prepared.

5. Click the **Complete Signature** or **Submit** button to finalize your decision.

If submission is successful, you will see a confirmation message. Otherwise, you will see an error message explaining why your decision was not accepted.

Based on your decision, one of the following outcomes will occur:

- **Sign and Submit:** The application is sent to the appropriate agency for consideration.
- **Return:** The application is returned to the creator for modification. You will receive a new work item when the creator resubmits the application.
- **Withdraw:** The application is voided and no further action can be taken.

Discard or Withdraw Application

Once you save an application, it cannot be deleted, however it can be withdrawn or discarded by clicking the **Withdraw** button on the **Application** screen.

Applications can also be discarded/withdrawn after being submitted to the Signatory Official if the Signatory Official selects the **Withdraw** option when reviewing the application.

Once an application is withdrawn, it is locked and cannot be edited again; however, you can start a new application against the same opportunity (if the opportunity is still accepting applications).

Edit Application

Although all users with either the Grants Administrative Officer (GAO) or Grants Processor role can create new applications, once an application is saved, sent to the Signatory Official, or submitted the awarding agency, the status of the application determines who can edit the claim.

*Users with the GAO and GP role can **transfer** draft and returned applications if they are stuck with a Grants Processor who is unavailable or otherwise unable to act on the application.*

Draft

The application creator and anyone with the GAO role can edit the application.

Pending Signature

If an application must be edited after it has been submitted to the Signatory Official, the Signatory Official must send the application back by selecting the **Return** option when reviewing the application.

Returned by Signatory Official

The application creator and anyone with the GAO role can edit the application.

Submitted

If you need to make changes to an application after it has been submitted to the awarding agency, please contact the agency to request return of the application.

Pending Clarification

Application was returned by the agency for edits. The application creator and anyone with the GAO role can edit the application
